

22nd November 2019 at Startup Accelerator India, Visakhapatnam

Startups share their ideas, products and marketing strategies with other startups to get some feedbacks and suggestions from them.

The session helped many startups to understand the current demands in the market and how they need to strategize their marketing plan to fit in go-to-market. Also, the discussion helped the startups to know if they are going in the right direction with their product/software or if there is still some scope of improvement needed before launching it in the market.
